

RAUNAK KUMAR RAO

Backend Developer • Computer Science Undergrad @ Acharya Institute of Technology

+91-8340415951 | sraunak204@gmail.com | [LinkedIn](#) | [GitHub](#) | [LeetCode](#) | Bengaluru, India

PROFESSIONAL SUMMARY

Computer Science undergraduate with a growing interest in backend development and AI-assisted engineering workflows. Passionate about Data Structures and Algorithms, with consistent practice on LeetCode to sharpen analytical and problem-solving skills. Built the backend for KAVACH, a real-time AI fraud detection platform, as part of a team that placed 4th at TRIGGER 2K26 hackathon. Looking for an internship to apply and grow these skills in a real-world engineering environment.

SKILLS & TOOLS

Programming: Python, C++, C

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Developer Tools: Git, GitHub, Jupyter Notebook, VS Code, PowerBI

AI-Assisted Development: Antigravity and other AI coding tools for rapid backend scaffolding

Currently Learning: Web development basics, to complement AI/ML projects with usable interfaces

Soft Skills: Active Listening, Verbal Communication, Team Collaboration, Group Discussion

PROJECTS

KAVACH — AI Fraud Detection Platform (Backend Contributor)

- Built the backend API for a real-time AI fraud detection platform as part of a 2-person team, using Antigravity and other AI-assisted development tools.
 - Developed the API that receives suspicious SMS messages and returns a threat score, powering the fraud-detection flow used by the frontend.
 - Platform analyzes SMS messages for phishing attacks targeting Indian users, designed to be simple and accessible for non-technical users.
 - Team placed 4th at TRIGGER 2K26 hackathon (RR College of Engineering), competing against 100+ teams in the AI/ML domain.
-

HACKATHONS & AWARDS

4th Place — Trigger Hackathon

Secured 4th position by developing an innovative technology-driven solution and presenting a scalable implementation strategy.

4th Place — AICTE Ideathon

Co-presented GramSehat, a rural AI health platform grounded in village field research, as part of the pitching team; recognized for social impact.

EDUCATION

Acharya Institute of Technology — Bachelor of Engineering, Computer Science | GPA: 8.8/10.0 | Expected 2028

LEADERSHIP & VOLUNTEER WORK

- Volunteer, SRISHTI 2025 — Karnataka's national-level hackathon.
- Core Committee Member, TECH HABBA 2025 — Social Media Team.
